Julie was mine from childhood;
We tumbled in clover mows,
We fished in the brook with a pin for a hook,
We swung on the bended boughs;
I saved her life from the river
When our raft was split in twain—
She had not touched the bottom
Frail bad her un again.

She had not touched the bottom
Ere I had her up again.
Then for long years I missed her—
In school and foreign land,
Where she met Count Gambollero
And the Duchess of Fourinhand.
Then back to Hall Columbia
With a lot of foreign also With a lot of foreign airs, hich I gobbled up as a tiger-pup Would gobble a nest of hares.

Yet, alas ! a "mangled exile," (With a tenderness for hash
At Delmonico's north counter.)
Turned her gentle calabash.
Folks said he played "draw-poker,"
And "cases" kept at night;
I've no idea what "cases" are,
But I "poked" him out of sight;
And Julie laughed as in other days,
And the thing turned out all right.

And now we're off a-kiting
Around our honeymood,
With a blanket-strap and a lunch box

With a blanket-strap and a lines of As big as a small pontoon—
The coseyest pair of turtles,
With only a single spoon!
And the folks in the cars all "spot" is,
For they chuckle, "Happy elves!"
'Tah-tah!" and "highty-tighty!"

Business for the moment slightly deranged from the near approach of carnival, which is being extendively prepared for by those who are inclined to be happy on all legal occasions. New York Rice Market.

New York Rice Market.

From the Daily Bulletin, February 25: Domestic continues in moderate supply, and is firmly held, but the cost is so great that buyers are indifferent, and purchase from the foreign stock whenever possible. Sales of 00 tierces Carolina at \$383/c for common to good, and \$3/485/c for prime to very choice. East India goods not very active, but steadily held. Sales of 300 bags Rangoon at 721/c.

From the Journal of Commerce: Rice remains steady. The offerings are moderate, and are at full rates only, but dealers purchase only as they have occasion to use. The sales are 60 terces Carolina at \$285/c, and 300 bags Rangoon at 72 7/20 currency.

Carolina at \$35%,c, and \$300 odgs rangeous 7%c currency.

From the Times: Rice has been quiet, the light offerings and firmness of holders checking business in Carolina, which has been quoted at \$888 50 per 100 lbs Rangoon has been selling at \$787 12%, currency.

New York Naval Stores Market.

From the Journal of Commerce, February 25: The market for spirits of turpentine is hardly so firm. The stock is in few hands and the arrivals are light, but a continued small demand has induced a few holders to accept a shade easier figures. We quite merchantable lots at \$35/254c., the latter an outside price. Sales are \$3 bbis. In merchantable order at 53½c, and 100 bbls in shipping order at 54c. Resins—the market remains in about the same position. The stock has received no important additions, and holders are unwilling to release supplies unless at late full prices. There is very little inquiry. 300 bbis strained sold at \$2.62½c. We quote strained at \$2.602 25; No 2. \$2.7583; No 1, \$3.258450; pale and extra pale, \$587.50. Tar is duli at \$2.45 for Washington and \$2.50 for Wilmington.

New York Hay Market.

New York Hay Market.

The market is only steady at \$1 20 for shipping grades; the sales are 45 bales compressed for Jacksonville at \$1 30, 80 bales do for Mobile at \$1 25, 225 bales ordinary shipping for Charleston, 56 for Washington, 20 for Fernandina, and 100 for another port in the South, all at \$1 20. Retail and straw are very firm and rule as before quoted.

Boston Market.

Boston Market.

BOSTON, February 22.—Coffee—The market for coffee is quiet, but prices are firm, and full previous rates are readily obtained for jobbing lots. The sales have been at 193;a23c for Java, as to quality, and 14a163c, gold, for Rio. St. Domingo is quiet, and prices are nominally 93;a10c per pound, rold.

Cotton.—There has been a better feeling for cotton for some days gest, but prices remain without rated improvement. The manufacturers have been very well supplied by recent large receipts, and are not purchasing to any extent. The sales have been at 123;a133c for ordinary; 33;a143c for good ordinary; 143;a15c for low middlings, and 153;a153c for low middlings, and 153;a153c for low middlings, and 153;a153c for low middlings, and the tendency is upward, the reduced receipts at Southern parts having imparted more courage to holders.

Domestics.—In cotton and woolen goods there is no material change to notice. Standard cottons are held with considerable firmness, as stocks in manufacturers' hands are small, with the prospect of better prices and a more active trade at an early day.

GUNNY EAGS.—The market for gunny bags is rather dull with sales of 50 bales at 163;c currency; and 500 at 11c, gold, in bond.

GUNNY CLOTH.—This article is firm at 19a20c per yard, currency, for Caicutta and domestic, and to arrive 123c, gold, in bond.

GEO. W. WITTE, Agent, Charleston, S. C. IMPORTANT TO COTTON PLANTERS!

JAMES T. GARDINER, President, Augusta, Go.

THE MARYLAND .. FERTILIZING AND MANUFACTURING COMPAN

HAVE PREPARED A SPECIAL PERTILIZER ADAPTED TO THE COTTON PLANT, UNDER THE NAME OF

COTTON FOOD! WHICH THEY CLAIM TO BE OF THE HIGHEST GRADE OF FERTILIZERS SOLD IN THE SOUTH EQUAL IN ITS RESULTS TO PERUVIAN GUANO, AND OF MORE PERMANENT

BENEFIT TO THE SOIL. It has been used by SEVERAL HUNDRED PLANTERS in North and South Carolina and Georgia, for two Seasons, with the following results:

IT INCREASES THE CROP FROM 100 TO 200 PER CENT.

It resists drought in all cases. The crop is not affected by rust.

It matures the crop three to four weeks in advance, thus insuring the crop against early frosts, or in the event of a backward season for planting enables the planter to put in his crop three or four weeks later, even as late as the lat of June, with a certainty of success.

It produces a better quality of Cotton.

Looking at the low price of Cotton, the intelligent planter will readily comprehend the necessity of using nothing but the highest grade of Fertilizers, and of strictly avoiding those whose value has been reduced by adulteration or the use of cheap materials under pretence of meeting the low price of Cotton. of Cotton.

If his crop is only doubled by the use of "COTTON FOOD" it will give him from one to two hunlife per cent, profit on his outlay, with Cotton at 1234 cents per pound, and it will enable him to
peant fewer acres with a corresponding reduction of labor and expense with better results.
